Career Summary

Enthusiastic and motivated **Computer Science and Design undergraduate (2023–2027)** with a strong interest in **Data Analysis, Database Management**. Skilled in **SQL, MySQL, Python, and Power BI**, with hands-on experience in data visualization using **Pandas, NumPy, Matplotlib, and Seaborn**. Passionate about solving real-world problems through structured, data-driven analysis.

Education

Bachelor of Engineering – Computer Science and Design

2023 – 2027 (Pursuing)

Higher Secondary Certificate (HSC)

July 2021 – June 2022

Percentage: **58.17%**

Secondary School Certificate (SSC)

July 2019 – June 2020

Percentage: **76.60%**

Projects

Online Book Store – SQL Project

- Designed and implemented an SQL database for managing books, customers, and orders.

- Performed complex SQL queries including filtering, grouping, aggregation, and joins.
- Demonstrated strong understanding of relational database design and data analysis.

Retail Sales Analysis – SQL Project

- Conducted sales data analysis using SQL to extract meaningful business insights.
 - Wrote queries to calculate total revenue, top-selling products, and monthly performance.
 - Improved data accessibility to support better business decision-making.
-

Technical Skills

Programming & Databases: SQL, MySQL, MySQL Server

Data Analytics: Python, Power BI, Pandas, NumPy, Matplotlib, Seaborn

Other Skills: Data Cleaning, Data Visualization, Report Generation

Strengths

- Analytical and logical thinking
 - Strong problem-solving skills
 - Quick learner with a growth mindset
 - Consistent and self-motivated
-
